EXECUTIVE CANCER
SCREENING

EUR 2700

THE EXECUTIVE
CANCER SCREENING

Welcome to our basic Executive Essential Screening Programme. This health screening option is recommended if you want a quick but significant checkup with the focus on cancer. It is recommended to anyone over 30 years of age, and younger, if there is illness in the family. It is also available to our Premium Screening clients annually for a discounted price.
This checkup takes 2-3 hours.

The programme covers:

Clinical examination by doctor with lung function test.

The scans included are:
- MRI Brain with Angio
- MRI Neck/Throat
- MRI Thorax/Lungs
- MRI Abdomen with Cholangiography, fasting (Liver, gallbladder, spleen, pancreas, kidneys and adrenals)
- Pelvis (bladder and female/male genitalia)

Follow up Consultation with our Executive Doctor.

Treatment and control at the clinic of newly discovered diseases. If necessary, referral to specialist.

Written summary of findings and link to images.

A comprehensive cancer focused checkup can be strengthened and more accurate by the addition of further investigations, as listed below. Please request any one or all of these tests to make your check up more robust, or ask for our screening doctor to contact you to discuss your individual needs.

THE EXECUTIVE
CANCER SCREENING

Optional:

Skin cancer risk by dermoscopy[1] | EUR 150

Nutritional consultation for cancer risk[2] | EUR 150

Full blood panel[3] | EUR 500

Bowel endoscopy[4] | EUR 1500

Reference 1: Skin cancer risk by dermoscopy done by a screening doctor or dermatologist.
Reference 2 The one-hour nutritional consultation is done by a specialist doctor or nutritionist.
Reference 3: Full blood panel to include more than 50 conditions.
Reference 4: Conventional or capsule camera investigation to exclude bowel cancer.
